

Hiring Manager
Bellabeat
Zagreb, Croatia

I am writing to express my interest in the Android Developer position at Bellabeat. Although I am in the early stages of my career as an Android developer, I am incredibly enthusiastic about the opportunity to contribute to your mission of promoting wellness through innovative, beautifully designed products.

I recently graduated with a Master's degree in IT, where I gained foundational experience in Android development, including working with Java and Kotlin, and building simple applications as part of my coursework. I have developed a strong understanding of Android fundamentals, including the integration of APIs, UI design, and testing, and I am eager to apply this knowledge in a professional environment.

I am particularly excited about Bellabeat's commitment to using technology to improve women's health and well-being. I share your passion for creating meaningful products, and I am motivated to learn and grow within your talented team to help build the next generation of wellness-driven Android applications.

While my experience may be limited, I am highly motivated, quick to learn, and excited about the chance to work with a dynamic, multinational team. I am confident that my enthusiasm for technology, my problem-solving mindset, and my willingness to take on challenges will allow me to contribute effectively to Bellabeat's growth and success.

Thank you for considering my application. I would be thrilled to further discuss how my skills and passion align with the goals of your team. I look forward to the opportunity to speak with you soon.

Sincerely,
Shivani Singh
